**Results Disclaimer**

All results posted are final. Our priority in posting results for cycling events is the top placing which cover the money or medal places and the Pennsylvania Super Series and PA Bar listings. When practical we will list all finishers as well. Overall times for the winners will be posted (When available) for mass start events but not for the placed positions. We will make every effort to post the top 20 at events shortly after the completion of the event. The time for protesting any mistakes in the top 20 is within 15 minutes after the results are posted. We will, of course, post times for Time Trials.

In running and multi-sport events we will post all positions and times when available.

We will make every effort to ensure accurate reporting of results. If, however, you notice that you are listed as having finished at 41st instead of 39th please don't email us complaining. The key to getting picked accurately in bicycle races is to place in the money
